

Super Air Family of Air Compressors

The Super Air family of air compressors gives you the quality and performance you need for years of dependable service. An air compressor is an important part of your air duct cleaning team by providing the cfm (air volume) and psi (air pressure) you need to operate your air washing tools, whip systems and pneumatic tools.

Choose from three electric models and two gas models. Others sizes are also available on special order basis. Super Air compressors features large receiver tank, water filter and most have a dual air line manifold.

In addition, the standard accessory package includes 200' of air hose, a 25' forward skipper line, a 25" reverse skipper line and a blow gun for all your basic air washing needs. Optional whip systems are also available.

Features & Benefits

- Gas units include a 9 hp portable and a 13 hp van/trailer mounted systems.
- Electric units include a 1.5 hp (110volt, 20 amp) portable, 5 hp (220volt, 60 Hz) portable, and 5 hp (220volt, 50Hz) portable systems.
- All have large ASME certified receiver tanks for maximum productivity and safety.
- Most have inline water filter and dual air line hook-ups.
- Standard accessory package includes 200' of air hose, 25' skipper line with forward air nozzle, 25' reverse skipper line with reverse air nozzle and blowgun.
